

HYGIENE

The patient's hygiene aims to provide well-being and comfort, while acting as a preventive measure against infections.

Some of the hygiene recommendations are:

- Wash your hands with soap and water or use isopropyl alcohol.
- Towel or shower bath as directed by your doctor.
- Disinfect hands when touching dirty objects.
- Do not immerse yourself in bath tubs or pools after surgery.

It should be noted that patients should receive the level of assistance they need to meet their individual personal hygiene needs.

This is general information ask your plastic surgeon about your particular case.
